NATIONAL PLAYING FIELD ASSOCIATION DEFINITIONS

Designated play areas are areas for children and young people containing a range of facilities and an environment that has been designed to provide focused opportunities for outdoor play comprising casual or informal playing space within housing areas. These play areas comprise LAPs, LEAPs and NEAPs

LAP (Local Area for Play):

A small area of open space specifically designated and primarily laid out for very young children to play close to where they live i.e. within one minute's walking time. LAPs are designed to allow for ease of informal observation and supervision and primarily function to encourage informal play and social interaction for toddlers. The LAP requires no play equipment as such, relying more on demonstrative features indicating that play is positively encouraged.

LEAP (Locally Equipped Area for Play):

An area of open space specifically designed and laid out with features including equipment for children who are beginning to play independently. The number and nature of equipment and structures is a matter for local decision, though provision for a minimum number of six play experiences is recommended.

Play features including equipment are an integral part of the LEAP and the attractiveness of such spaces, though it is also important that the space can be used for physical activity and games.

NEAP (Neighbourhood Equipped Area of Play):

This is an area of open space specifically designated, laid out and equipped mainly for older children but potentially with play opportunities for younger children as well. It can provide play equipment and a hard surface area for ball games or wheeled activities such as roller skating or cycling. It may provide other facilities such as a ramp for skateboarding, a rebound wall, and a shelter for meeting and socialising. NEAPs can often be combined with LEAP provision.

NOTE:

As Wiltshire Council see little play value in a LAP it will look at options to enlarge other play areas on the development or substitute a Trim Trail for the LAP. As there is no NPFA standard for a Trim Trail (there is the EN16630 quality spec) discussions on the design will be on a case by case basis, with the expectation that the developer would not need to spend more than the cost of the LAP on the Trim Trail.

WILTSHIRE COUNCIL FIXED PLAY AREA CHARACTERISTICS

LAP (LOCAL AREA FOR PLAY)

Please note that due to the general lack of play value and relatively high maintenance costs Wiltshire Council would prefer not to have equipped LAP's on residential developments, if appropriate, consideration will be given to Trim Trails instead.

- Has a minimum activity zone area of 100 m².
- Caters for children up to 6 years of age.
- Is within 10 minute's walking time from home.
- Has a buffer zone of not less than 5m in depth between the activity zone and the boundary of the nearest dwelling. This should include planting to enable children to experience natural scent, colour and texture.
- Is overlooked by nearby houses.
- Gable ends or other exposed walls should be protected from use for ball games by, for example, providing a strip of dense planting of 1 m minimum depth.
- Is positioned beside a pedestrian pathway on a well-used route.
- Occupies a reasonably flat, well-drained site with grass or a hard surface.
- Contains features that enable children to identify the space as their own domain, e.g. low key games such as hopscotch, a footprint trail, mushroom style seating etc.
- Any playground equipment provided must conform to EN 1176.
- Contains adequate seating for parents and/or carers.
- Provides one litter bin
- Has black powder coated metal bow top fencing of at least 1m in height around the perimeter, with contrasting coloured outward opening self-closing pedestrian gate (red / yellow) to prevent access by dogs.
- Has a barrier to limit the speed of a child entering or leaving the facility. (Required when opening onto Highway only).
- Has a sign indicating:
 - The area is solely for use by children up to 6 years.
 - Adults are not allowed unless accompanied by children;
 - Dogs are excluded.
 - Smoking is prohibited

LEAP (LOCAL EQUIPPED AREA FOR PLAY)

- Has a minimum activity zone area of 400 m².
- Caters for children from 4 to 8 years of age.
- Is within 10 minutes' walking time from home.
- Has a buffer zone of not less than 10m in depth between the activity zone and the boundary of the nearest dwelling. This zone should include planting to enable children to experience natural scent, colour and texture.
- Should not have play equipment overlooking nearby gardens.
- Is positioned by a pedestrian pathway on a well-used route.
- Occupies a well-drained site with a grass or hard surface and features an appropriate impact absorbing surface beneath and around the play equipment conforming to EN 1177.
- Contains at least 5 types of play equipment, of which at least two are individual pieces, rather than part of a combination multi-play unit. Inclusivity should be seen as key and therefore at least one inclusive item should be included. Each type of play equipment should be designed to stimulate one of the following activities:
 - Balancing
 - Rocking
 - Climbing/Agility
 - Sliding
 - Social playAdditional items may focus upon rotating, swinging, jumping, crawling, viewing, counting or touching.
- The playground equipment must conform to EN 1176.
- Contains adequate seating for parents and/or carers.
- Contains two litterbins.
- Has adequate space around the equipment to enable children to express their general exuberance and play games of 'tag' or 'chase'.
- Has black powder coated metal bow top fencing of at least 1m in height around the perimeter of the activity zone, with two outward opening, self closing gates of contrasting colour to the fencing (yellow / red), on opposite sides of the play area, to deter entry by dogs and to restrict opportunities of bullying.
- Has a barrier to limit the speed of a child entering or leaving the facility. (Required when opening onto Highway only).
- Has a sign indicating:

- The area is solely for use by children up to 8 years.
- Adults are not allowed unless accompanied by children;
- Dogs are excluded.
- Location of nearest public telephone.
- Name and telephone number of the operator of the facility to report any incident or damage to the play equipment.
- Smoking is prohibited

NEAP (NEIGHBOURHOOD EQUIPPED AREA FOR PLAY)

- Has a minimum activity zone area of 1000 m² that is divided into two parts; one containing a range of playground equipment and the other having a hard surface of at least 465 m² (the minimum area needed to play five-a-side football).
- Caters predominantly for older children.
- Is within 12-13 minutes' walking time from home.
- Has a buffer zone of not less than 30m in depth between the activity zone and the boundary of the nearest dwelling. A greater distance maybe needed where purpose built skateboarding facilities are provided. This zone should include planting to enable children to experience natural scent, colour and texture.
- Positioned beside a pedestrian pathway on a well-used route.
- Occupies a well drained site with both grass and hard surfaced areas and featuring an appropriate impact absorbing surface beneath and around the play equipment conforming to EN 1176.
- Contains at least 8 types of play equipment comprising:
 - At least 1 item to stimulate rocking, tough, social or development play among younger children;
 - At least 2 items to facilitate sliding, swinging or moderate climbing;
 - At least 5 items to encourage either more adventurous climbing, single point swinging, balancing, rotating or gliding (e.g. cableway). At least 3 of these items should be individual play items rather than part of a combination multi-play unit.
 - At least one of the above needs to be an inclusive item.
- The playground equipment must conform to EN 1176.
- Contains adequate seating for parents and/or carers in the vicinity of the play equipment and other seating within the hard surfaced games area.
- Contains litterbins at each access point and in the proximity of each group of seats.
- Has a convenient and secure parking facility for bicycles.

- Has adequate space around the equipment to enable children to express their general exuberance and play and play games of 'tag' or 'chase'.
- Has black powder coated metal bow top fencing of at least 1m in height around the perimeter of the activity zone, with two outward opening, self closing gates of contrasting colour to the fencing (yellow / red), on opposite sides of the space, to deter entry by dogs and to restrict opportunities for bullying.
- Has a barrier to limit the speed of a child entering or leaving the facility. (Required when opening onto Highway only).
- Has a sign to indicate:
 - The area is solely for use by children up to 14 years.
 - Adults are not allowed in the equipped space unless accompanied by children;
 - Dogs are excluded;
 - Name and telephone number of the operator of the facility to report any incident or damage to the play equipment;
 - Location of nearest public telephone.
 - Smoking is prohibited.
