Description

Please describe details of the proposed development or works including any change of use

I would like permission to erect a summer house style garden shed (<15 sq m) to accommodate a small scale dog grooming business.

I only operate a small scale business, offering one to one grooms, with a maximum of 1-3 dogs per day. I operate a model that sees one dog at a time coming and going from my grooming room. My business hours are 0900-1700hrs during the 3 - 4 days in the week that I have clients and occasional Saturdays 0900-1500hrs. I have been a dog groomer for 15 years and I am not looking to grow my business. I am only expecting to bring existing customers with me, not actively seeking new clients, with a view to winding the business down in a few years due to my age and health.

The current owners of this dwelling have given their consent for planning permission to be applied for and my mortgage provider has also approved my plan. I have engaged with the neighbours of this property and they have expressed their contentment at my proposal. We have had a search conducted by my Solicitor and no covenants are in place preventing a run from home business. I am professionally qualified and insured appropriately according to professional guidelines.

I do not use business signage at my current dwelling and I will not be using any at this new property. Noise levels during business hours are not significant and I have operated in 2 dwellings previously without complaints thus far. The new shed will have additional sound proofing added at my request. I do not employ any additional staff and I take pride in operating my business with consideration for my neighbours and maintaining a very low impact to the surrounding area. Both adjoining properties have similar style sheds and / or extensive extensions to the rear of their properties, so I feel this erection would not be out of character with the existing situation.

I am a single car household. This property has pre-existing allocated off-the-road parking for 2 cars at any one time at the front of the building. I would anticipate that customers would be able to park here without causing any additional congestion for my neighbours or passing traffic.

The house itself will not be used for any part of the business, therefore, no change of use will be applied for in that regard. Work has not started on the shed, construction will only commence once permission has been received, as per your guidance.

Has the work or change of use already started?

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold).

Note: Please read the help text for further information why developments may be exempt or not in scope.

☐ No

If Yes, please provide details:

Does the proposal involve the need to dispose of trade effluents or trade waste?

- ☒ Yes
☐ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

Dog hair and a small amount of dog faeces will be the only effluents. I will only be operating a small scale business, grooming 1-3 dogs a day, so I do not expect a significant amount of waste. A commercial waste contract will take care of the appropriate disposal.

The proposal does not meet the criteria for permitted development under the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) due to the following reason:

Whereas some small scale businesses can be operated from a residential property without planning permission, the proposed dog grooming business is not considered to be incidental to the enjoyment of the dwellinghouse.

As such, planning permission would be required before proceeding with the proposed works.
