

Highway Development Management Consultation Response

Planning Application Ref: PL/2026/02382

Site Address: Bathurst Estate, Kemble, Cirencester, GL7 6ND.

Proposal: The erection of a single non-illuminated information board to sit adjacent to Kemble Solar Farm on the southwestern boundary.

Date of Consultation Response: 11/05/2026

I refer to the above planning application dated 13/04/2026 seeking permission for the erection of a single non-illuminated information board to sit adjacent to Kemble Solar Farm on the southwestern boundary.

The site is located at the end of a private track which accesses onto a C Classified section of public highway to the south and the location for the siting of the information board is adjacent to PROW Bridleway CRUD4. There do not appear to be any plans to alter the access with the public highway or the PROW Bridleway.

The information board is not illuminated and therefore there would be no objection raised with regard to highways, subject to the following conditions:

ROW (in absence of a CMS/consultation)

No construction / demolition vehicle access may be taken along [CRUD4] without prior consultation with the Wiltshire Council Rights of Way Warden. Where appropriate any safety/mitigation/reinstatement measures must be approved by the Wiltshire Council Rights of Way Warden.

Reason: To ensure the public right of way remains available and convenient for public use.

No materials, plant, temporary structures or excavations of any kind should be deposited / undertaken which obstruct or adversely affect the public right of way whilst development takes place.

Reason: To ensure the public right of way remains available and convenient for public use.
