[England - Google Maps](#)

Introduction and Proposal

I refer to the above planning application received on 30th April 2026 regarding the erection of a new detached barn on an area of existing concrete yard to cover a slurry/manure storage area.

Access

The proposed barn would be accessed through the existing main farmyard access, and there are no changes proposed to the access arrangements from the public highway.

Summary and Recommendations

The barn is proposed to provide cover to the slurry/manure storage area and would have no adverse impact on the highway.

Therefore, no highway objection is raised.
