13th May 2026

Dear Madam,

**Town and Country Planning (General Permitted Development) (Amendment) (England)
Order 2015**

Application No:	PL/2026/01844
APPLICATION TYPE:	Prior approval: Schedule 2, Part 19, Class TA: Development by the Crown on a closed defence site
Proposal:	Moving the location of a garage and training building previously approved under application reference PL/2022/04372
Location:	Mod Lyneham, Calne Road, Lyneham, Chippenham, SN15 4XX
On Behalf Of:	Secretary of State for Defence

I refer to your application for a determination as to whether the prior approval of the local planning authority will be required for this development.

The local planning authority has determined in this case that its prior approval **will not be required**.

INFORMATIVE

In the event that contamination is encountered at any stage during the carrying out of the approved development, the Local Planning Authority should be informed as soon as reasonably practicable. An appropriate and competent contractor should be engaged to assess and manage the contamination, and details of the proposed remediation measures should be submitted to the Local Planning Authority. Upon completion of any remedial works, a written verification report should be provided confirming the measures undertaken and demonstrating that the site has been rendered suitable for its intended use.

Yours faithfully

Head of Development Management
