Description of Proposed Works

Please describe the proposed works

Planning permission is sought for the conversion of the internal garage of 6 Branscombe Drive.

Currently, there is a downstairs toilet which takes access from the kitchen. It is intended that the access to the toilet will be taken via the garage. The new access through the garage will be separated off from the remainder of the garage and used to house the white goods from the kitchen as a small utility room.

The remainder of the garage will be converted into a downstairs room. Initially this will be used as a study, but since the owners of the property are both in their mid 60s, it is minded that should one or both experience mobility problems in the future the space may be used as a downstairs bedroom. The room will be accessed by a new doorway in the hall.

The current garage door will be bricked up using similar bricks to the rest of the house and replaced by a window of the same design as the existing windows to the frontage of the house to ensure that the appearance of the property remains consistent.

The garage is of a typical size for a house of the 1970s and is inadequate for modern day cars. The frontage of the property is blocked paved and provides adequate parking for two cars, as such the loss of the garage space would not diminish the onsite parking.
