Subject: RE: Economic Viability Consult PL/2026/01525 Following Planning Committee

Dear Sam

Economic Development

Many thanks for engaging with us on this.

The Council's Economy and Regeneration team raise no specific objection and advise that (while in principle they support underused employment sites brought back into productive use) given the site's location and limited historic function, its loss is not expected to result in significant harm to the local economy.

Please let us know if there is anything further we can help with.

Rory
