

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

- ☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

Whilst the development will result in the loss of grass it will not involve the loss of any trees

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

- ☐ Yes
☒ No

4.6 How will you achieve the target net gain percentage?

- ☐ On-site
☒ Off-site
☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?

- ☐ Yes
☒ No

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

N/A

4.9 How many off-site biodiversity units do you need to meet 10% net gain?

0.17

4.10 Explain why you're using off-site biodiversity units

Only answer this question if you're planning to use off-site biodiversity units (250 words).

The application site is predominantly hardstanding forming a caravan storage area with limited opportunity to deliver meaningful habitat within the red line boundary. The scale of development also means that the proposals would have little opportunity to deliver meaningful new habitat whereas the purchase of credits would help facilitate a large habitat creation.

4.11 Explain why you're planning to use statutory biodiversity credits

Only answer this question if you're planning to use statutory biodiversity credits (250 words).
