

Design and Access Statement

Lacock Visitor Reception Building Chimney Repairs

The Fox Talbot Museum and Abbey Lodge
High Street
Lacock
Wiltshire,
SN15 2LG

Introduction

This Design and Access Statement accompanies a Listed Building Consent application for introducing lateral restraint and re-rendering a 20th century chimney stack at the southeast gable elevation of the Fox Talbot Museum, Lacock.

Design and Access Statement

All the proposed works are to the chimney stack externally at 1st floor level and above and will have no impact on the visitor route, access to any part of the building or grounds of Lacock Abbey or be accessible by staff or public. The design of the scheme is to match traditional render colours and textures used in Lacock Village using a lime render. The Helifix system proposed to introduce lateral restraint will not be visible once the render has been replaced.
