

CONSTRUCTION METHOD STATEMENT:

a)

The parking of vehicles of site operatives and visitors will be within the hard standing of the site which has parking for eight vehicles.

b)

Loading and unloading of plant and materials will be within the hard standing of the site. The access track will always be kept clear of any vehicles.

c)

Storage of plant and materials will be within existing garages and new garage base on site of new dwelling.

d)

Heras fencing will be used to divide the existing site to the rear and at the front when any construction is not being undertaken on site.

e)

Wheel washing facilities will be installed on site for when required.

f)

Any site cutting will be undertaken within enclosed area to keep the dust to the minimum and cleared up daily with the site and track to be kept clean and tidy where required. Most cutting will be undertaken within the existing garages or new extension.

g)

Recycling and disposing of waste material from the construction works will be removed from site daily. There is minimal demolition of a small part of existing garden wall.

h)

All existing trees and shrubs to be retained on site will be protected by Heras fencing.

i)

Hours of construction, including deliveries to site will be during the week 8am - 5pm and 8am - 1pm on a Saturday.
