

Five Lanes solar

Stockproof fencing location plan L300

Key

Site boundary

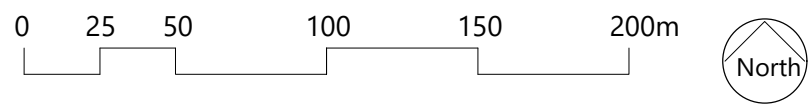

Proposed 2m high stock proof fencing (yellow dashed dot line). 2m high wire fencing mesh with 15cm wide apertures and 23 horizontal wires. The wire mesh fence must be galvanised for corrosion resistance and manufactured to BS EN 10223-5 1998.

Proposed 4.2m wide deer gate fully clad with 75x75x4mm welded mesh galvanised (black solid line). The overall height of the gate is 1.8m with bracing on front of gate, mesh at the back to stop animals climbing up.

Scale 1:2,500 @ A1
