

Materials
30 Durden Lane, Pewsey, SN9 5JN

Sourcing from local businesses and reclaiming where possible to save energy, resources and keeping our carbon footprint to a minimum.

Supplier: Beechfield Reclamation, Hopton Park Industrial Estate, Devizes, SN10 2DX.

Beechfield Reclamation have confirmed that they can supply the full amount of materials necessary for the renovation and extension for 30 Dursden Lane.

Bricks

Sample house exterior wall panel made using reclaimed handmade bricks, shown in front of the house.

The same reclaimed brick materials are to be used for the rear extension as well as the boundary wall, which will also incorporate limestone.

Limestone

Sample boundary wall panel made using reclaimed limestone, mortar made using pure natural hydraulic lime and white sand true to local tradition, shown in front of the house.

Planning approved limestone and brick boundary wall.

Example of local limestone and brick boundary wall

Area where boundary wall to be built in current state.

Slate

Sample of reclaimed Welsh slate to be used for the roof.

PV slate and natural slate alongside each other to demonstrate appearance blended together.
