Description

Please describe details of the proposed development or works including any change of use

change of use of self contained accommodation constructed in 1993 attached to existing property, used from 2016 as Air Bnb, and application is for retrospective approval for change of use. The change of use dates from when the applicants advertised their accommodation as an Air bnb. Before that, the accommodation was used as a spare bedroom for guests. In addition, the owners constructed a decorative chimney pot and installed it on the existing chimney stack above their sitting room fireplace in 2022. This pot extends 600mm above the ridge height of their house.

The studio, at the south end of the group of outbuildings, had a kitchen and shower room and bedroom constructed in it in 2013 and was used for accommodation for friends. In 2016, Lucy and Fred decided to advertise the accommodation as an Air bnb, and it has been available for use as that since then.

Fred, who designs and make furniture, has a large workshop at number 5A High Street, Pewsey.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

☐ Yes

☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

There will be no alterations in the site. Application is for retrospective change of use.

Note: Please read the help text for further information why developments may be exempt or not in scope
