

Marlborough NCN 403 Realignment - LDC photo sheet

Annotated photos showing the disused railway path between Five Stiles Road and Priory Court Care Home, Marlborough, in support of a Certificate of Lawful Proposed Development application.

Image 1 View from the existing NCN 403 leading down hill to Five Stiles Road. The proposals would not alter this part of the path, but an alternative route would be available for people to continue along the railway line instead of onto Five Stiles Road.

Image 2 Current entrance from the existing path off Five Stiles Road onto this section of disused railway line. There is a well trodden path here.

Image 3 Continuing along the disused railway line the path varies in width with a clear central path.

Image 4 Path along the centre of the railway line with vegetation either side.

Image 5 The edge of the railway embankment is visible on the right, screened from the Business Park and Household Recycling Centre by trees.

Image 6 Gate blocking the path approx. half way along its length, separating the land owned by Wiltshire Council from the privately owned land.

Image 7 The path widens out significantly on top of the old railway embankment.

Image 8 The path widens out significantly on top of the old railway embankment with a path visible through the trees.

Image 9 Fence at the end of the proposed path, which has an existing path on the other side running alongside Priory Court Care Home. This would be removed as part of these proposals and the two paths connected to form a continuous route to Tesco.

Image 10 Existing path alongside Priory Court Care Home, leading to Tesco.
