

Highway Development Management Consultation Response

Planning Application Ref: PL/2026/02804

Site Address: Land at Lye Common, Christian Malford, SN15 4BH.

Proposal: Proposed Car Port.

Date of Consultation Response: 16/06/2026

I refer to the above planning application dated 30/04/2026 seeking permission for a proposed car port.

The site is located with existing access onto Lye Common, an unclassified section of public highway subject to a speed limit of 30mph to the west and 60mph to the east. There are no proposals to alter the existing access with the public highway.

The proposals seek to place a car port in the northeast corner of the existing driveway, this would not alter the trip generation of the site, and I believe vehicles would still be able to turn within the curtilage allowing access and egress with the public highway in a forward gear.

It is therefore considered that no highway objection be raised.
