

Addendum to Supporting Statement received 17/06/2026

I have stated below my clients alterations regarding business hours to make them more flexible.

"The business will ordinarily operate between 08:30 and 18:30, Monday to Friday. To accommodate client demand and provide flexibility in appointment scheduling, the business will operate one late evening per week as a standard arrangement, with the final client appointment commencing no later than 20:30.

A second late evening may be required on occasion; however, this will only occur in response to increased client demand and will not form part of the business's regular operating hours. In all cases, the final client appointment will commence no later than 20:30.

These extended operating hours will be limited in frequency and managed to minimise any impact on neighbouring properties."
