

Mock-ups of Proposed Finished Site

The following visual mock-ups illustrate the intended finished appearance of the site, including ivy screening, evergreen shrub planting and the proposed entrance treatment.

Contents

1. Mock-up 1. Proposed finished frontage showing the main entrance with timber gates, ivy screening to the fence and a softened landscaped appearance.
2. Mock-up 2. Proposed finished roadside boundary showing ivy screening across the steel fence sections.
3. Mock-up 3. Updated frontage mock-up showing a solid timber gate spanning the full width of the opening, designed to match the style and character of the proposed fence treatment.

Mock-up 1

Mock-up 1. Proposed finished frontage showing the main entrance with timber gates, ivy screening to the fence and a softened landscaped appearance.

Mock-up 2

Mock-up 2. Proposed finished roadside boundary showing ivy screening across the steel fence sections.

Mock-up 3

Mock-up 3. Updated frontage mock-up showing a solid timber gate spanning the full width of the opening, designed to match the style and character of the proposed fence treatment.
