To whom it may concern,

Re: Liza's Little Explorers – Planning Application – Letter of Support

I am a parent of a child cared for by Liza's Little Explorers operating from 31 Conyger Road, Amesbury and am writing to you to confirm my full support for the daycare to remain operating from its current location.

My daughter has been attending this setting since Sept 2025, I choose this setting as it offers exceptional care for the children attending. They have consistently provided a high level of care and affection for my daughter and she has a huge amount of affection for them. The environment, I believe is exceptional offering a highly stimulating, fun learning environment delivered by high level of professionalism and dedication by the team.

Having an older child who attended a nursery setting, I took extra time and care to make sure I chose the right setting for my younger child and have found this at Liza's. The care provided in my opinion far exceeds that at other setting I viewed. I would really struggle to identify an alternative setting that would provide the same level of care and consideration that this one does. Liza's setting provides us with a reliable, stable and flexible offering that allows us to balance our family and work life effectively.

The location of the setting is perfect for my working pattern and it convenient and easy to travel to.

Prior to the move Liza arranged a meet and greet for the new location where not only were families of attendees invited, but the neighbours. I spoke with a few at length and all seemed excited to have the sound of little voices having fun in the area.

Since September, I have only a handful of occasions coincided with other parents, both on drop off and pick up, so believe that there will be minimal traffic issues arising in this location. All drop offs and pick ups are well established and are done with smooth transition.

Liza's Little Explorers is extremely important to our family and we would be very much effected if there were any planning issues. I urge you to approve all applications with regards this setting to allow the attending children continued excellent provisions. I fully support their application.

Your Faithfully
