To whom it may concern,

We are writing to express our full support for Liza's Little Explorers and their planning application.

Both of our children have been attending Liza's for over five years, and during that time we have consistently experienced exceptional care, professionalism, and a nurturing environment that has helped them grow and thrive.

We have also had the opportunity to meet Liza's neighbours during local gatherings hosted at her home. These interactions have always been positive, friendly, and community-focused, reflecting the respectful and considerate way Liza runs both her setting and her household.

The location at 31 Conyger Road is particularly suitable and convenient for families. Access for drop-off and collection at designated times has always been smooth and well-managed, with no disruption to the surrounding area.

Finding alternative childcare of the same quality, consistency, and warmth that Liza and her team provide would be extremely difficult. Their dedication, experience, and genuine care for the children make Liza's Little Explorers an invaluable asset to local families.

We strongly support this application and hope it will be viewed favourably.

Kind regards,

Robert Nicholson & Nicole Nicholson
