

Char Bournes

To whom it may concern,

I am writing to express my full support for Liza's Little Explorers operating from its current location 31 Conyger Road.

The care and service provided by Liza is truly exceptional and unlike anything I believe could be found elsewhere. She has cared for my daughter since she was just 9 months old, and in that time she has absolutely thrived. I can honestly hand on heart say that I do not believe there is another childminder locally who provides the same level of dedication, warmth, and quality of care that Liza does.

The amount of time, thought, and effort Liza puts into the children each and every day is amazing. From the wide variety of engaging activities she plans, to the quality of care, attention, and home-cooked food she provides, that is loved by everyone! Everything is done to such a high standard. I have not seen this level of personal care and nurturing in other childcare settings, including nurseries.

Most importantly, my daughter absolutely adores going to Liza's house. It has become a true second home to her, and we all see Liza and her family as an extension of our own. As a parent, there is no greater comfort than knowing your child feels safe, loved, happy, and secure when they are away from you. I would not trust my child with anyone else.

The location of her home is ideal for myself and the other parents I speak with. It is quick and convenient to access, and drop-offs and collections are always brief and well managed. Parents generally park for no more than a couple of minutes, and because each family has allocated drop-off and collection times, it is actually quite rare to see other parents during these times.

The thought of seeking alternative childcare is something I would never want to consider. While the convenience certainly helps, the main reason is the emotional impact it would have on my daughter. Having been with Liza since she was 9 months old and now approaching 4 years old, this environment is all she has ever known outside of home. To her, Liza's home feels like family, and moving her elsewhere would mean taking her away from a familiar, loving environment where she feels completely settled, secure, and loved.

She is an outstanding childminder and has played such an important role in my daughter's early years and development

Thanks,

Char & Simon
