

The applicants are looking to have 50 pitches on site. Cars will be parked adjacent to the pitches.

With regards to planting, are you happy with the proposed planting as shown on the plan in the BNG report (page 13)?

In respect of views from the B4040, please see the attached plan and photos. The view of the campsite from the B4040 is actually restricted by large hedges and trees, with only a small proportion of the land visible. Would allowing the hedges to grow higher be sufficient?

The amenity block is existing and is attached to the cafe/play barn and was included within application PL/2024/07194.
