

SCHWEGLER 2FN BAT BOX 55 10605

SPECIES: BAT

MATERIAL: Woodcrete

DIMENSIONS (MM): Ø 160 x 360

WEIGHT (KG): 4.9

INCLUDES: Nest box, hanger and aluminium nail

SPECIES: This design has proved highly successful with noctule and Bechstein's bats; up to 28 noctule bats with 9 young have been recorded in a 2FN.

SITING: This type is especially suitable for forests and parks. The 2FN bat box should be sited in trees and is best positioned at a height of between 3 to 6 metres. Bat boxes should ideally be sited in open sunny positions. Please note that once bats have inhabited a roost site, they may only be disturbed by licensed bat workers.

MAINTENANCE: The roost is largely self-cleaning, as the droppings can fall out of the bottom of the cavity. Nonetheless, checking and cleaning are recommended if the Bat Box is used by large numbers of Bats.

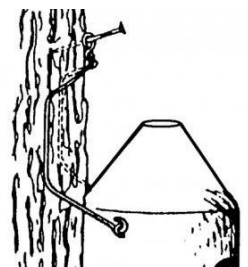

ACCESSORY:

SCHWEGLER 2FN FRONT PANEL ONLY 10118

Replacement front panel only for the Schwegler 2FN Bat Box

SCHWEGLER HANGER FOR BAT BOXES 16148
