20th June 2026

To whom it may concern,

Planning Application No: PL/2026/03223
(Land opposite Jubilee Cottage Witt Rd, Winterslow)

I wish to register an OBJECTION to the above application.

I understand the land is outside the Village Settlement Boundary and therefore has a presumption against development. I like the open countryside down Witt Rd and do not want to see it eroded.

Witt Rd is extensively used by horseriders and cyclist to access Bentley Woods at the end (it is a no through road). As Witt Rd is a rural single track lane it is often difficult to navigate because of the exceedingly high levels of motorized vehicles sharing the same space (ref. data from developers' own reports). For the many walkers using Witt Rd, it is even more hazardous as we lack pavements. As a regular user of Witt Rd I do not wish to see any development which will increase motorized traffic.

The 3 large houses that have just been built caused horrendous disruption for over a year because the access in Witt Rd is so restricted. This was totally disproportionate to what one might expect when living with a building site on your door step.

Yours faithfully,

CHRISTINE BARCLAY

To whom it may concern,

Planning Application No: PL/2026/03223
(Land opposite Jubilee Cottage Witt Rd, Winterslow)

I wish to register an OBJECTION to the above application.

I understand the land is outside the Village Settlement Boundary and therefore has a presumption against development. I like the open countryside down Witt Rd and do not want to see it eroded.

Witt Rd is extensively used by horseriders and cyclist to access Bentley Woods at the end (it is a no through road). As Witt Rd is a rural single track lane it is often difficult to navigate because of the exceedingly high levels of motorized vehicles sharing the same space (ref. data from developers' own reports). For the many walkers using Witt Rd, it is even more hazardous as we lack pavements. As a regular user of Witt Rd I do not wish to see any development which will increase motorized traffic.

The 3 large houses that have just been built caused horrendous disruption for over a year because the access in Witt Rd is so restricted. This was totally disproportionate to what one might expect when living with a building site on your door step.

Yours faithfully,

Kam Dugglesby DUGGLEBY
