Cast In Place

10400 x 11100

The climbing system Tonalia is a playground structure that offers a thrilling adventure and full body engagement. It invites children to climb, balance, and slide through challenges. With multiple entry and exit points the journey to the top or down is filled with endless possibilities. A large spiderweb net provides a daring mid-air challenge, boosting the excitement of navigating through height and space. This climbing system develops motor skills, spatial awareness, balance, and strength. As children move up, down, and around, imagination can fly free. The varying difficulty levels ensure that children of all skill levels can participate and enjoy the fun. The system is a hub of social interaction where cooperation, sharing, and planning come naturally with laughter and energetic play.

Please note: These warranties are applicable solely to HAGS products. Third-party items may come with their own separate warranty terms. For further details, feel free to **contact us**.

Welcome to the world of HAGS

We want to help people experience life the HAGS way. We inspire all generations to open their imaginations and explore the world through play and connection. We strive to connect people to the outdoors to harmonise with nature. We contribute to helping communities get happier and healthier through exercise. We are dedicated to ensuring safe and effortless access to boats and the sea by developing user-friendly and efficient docking systems.

But wait, there's more to our story...

...we achieve these goals through our exceptional range of play equipment, essential park and urban furniture, as well as our excellent sport and fitness equipment.

Guide to HAGS symbols

Our products are labelled with symbols showing assembly time, recommended age, inclusive play, free fall height, space required, etc. See below for the symbols used in this brochure.
