Key Plan

New metal outlet pipe to drain perimeter gutter channel. Pipe to pass through wall and project slightly beyond cornice.

New perimeter gutter channel, laid to falls towards drainage outlets.

New access floor to provide access for future dome maintenance. To be timber joist and boarded, with weathered upper deck sloping to perimeter gutter channel and drainage outlets to above cornice level.

Open joints in dome roof to be repointed with lime mortar

Access hatch. To have slight upstand and to be dressed in breather membrane.

New vent cowl to top of access floor, to maintain and improve ventilation through tower.

New perimeter gutter channel, laid to falls towards drainage outlets.

New metal outlet pipe to drain perimeter gutter channel. Pipe to pass through wall and project slightly beyond cornice.

Upper Floor Layout Plan (Plan of new upper access deck/weather protections below dome)
