JUNE SALE! 10 cycle shelter 4.1m length x 2.1m depth, available for web purchase only. Ideal for when quality needs to be high and budgets are low. Our most popular shelter, manufactured from 50mm x 50mm steel strongbox section. This unit has a choice of 3mm or 5mm high quality Pet-G UV2 Roof/Back sheeting, and an option to choose end panels for improved weather protection. Your choice of either above or below ground fixing is available at no extra cost. A number of finish options allows you to match this shelter to your needs and budget.

The main features of this shelter are:-

- Framework produced from steel strongbox section to EN 10219:2006
- Expert CPA Assured Galvanising , (where applicable) – our Expert CPA Assured Galvanising is applied to inside and outside surfaces as standard, carries a 10 year guarantee, and is a corrosion resistant zinc coating to BSEN1461
- High quality Pet-G UV2 clear sheeting
- Powder Coating (where applicable) material to BS3900, applied in house to ensure our stringent quality control standards are maintained.
- Cloaking (where applicable) – provides an aesthetically pleasing finish to the Pet-G sheeting, and improves edge durability – a feature not usually associated with shelters so competitively priced!

Additional standard benefits of our range include:-

- Choice of above ground or below ground fixing at no extra cost
- ***Free delivery*** to England, Wales, and Southern Scotland. (For delivery supplements to other UK and European destinations please contact us)
- Your choice of finish, either Expert CPA Assured Galvanising only, or Powder Coat finish only, free of charge.
- Option to choose Expert CPA Assured Galvanising and Powder Coat finish at a cost supplement.
- Our worry free guarantee - any manufacturing or material defect will be rectified free of charge.

For further information on any of the above items, please see our technical information pages Please note:- As our policy is one of continuous improvement, there may be minor differences between the product you receive and the images on the website. The overall appearance of the product will not be affected. The standard or the quality of the product supplied will be equal or superior to the product image on the website.
