Subject: Re: PL/2026/02544 - 49 White Street, West Lavington

Good Afternoon, Jane,

Thanks for coming to see the site on Monday.

I enclose up to date cabin plans, base plan and including parking plan I really hope these meet criteria. I have sent you an email from Aster as I approached them for advice. They also point out that the cabin would have to be taken down at the end of my tenancy.

For reference and guide in the parking scaled plan:

BLACK space current used space

RED space that could be converted into an additional parking space.

Additional statement for use of cabin:

My son turns 18 this July and we haven't received any respite support, even though my son is classed as a child in need with the local authority. After all this time I have tried to come up with other options for him and the log cabin is one thing that would change our lives tremendously.

If he were to be granted respite support in the future and was (for example) a carer was to come in and help take care of him whilst I could take a break) we would have that option to accommodate this.

My son is behind in his years and I have already had to keep him back a year in hopes that he will be ready for college next year.

I really hope planning can be agreed so I can support my son as best I can in order to prepare him for adulthood as best as possible. I have thought of many options over the years and best ways I can support him.

Many Thanks for your consideration

Megan McBain
