Dear Sirs

Salisbury and South Newton Hospitals – Solar Installations

I write in relation to a proposal delivers for solar array installations to both Salisbury District Hospital and South Newton Hospital.

I can confirm that I authorise Asset Plus as the Trust decarbonisation partner to act on the Trust behalf. In addition Revolution Energy, sub contractor to Asset plus are to be extended the same authority, to seek application in relation to Solar PV installations and any supporting works.

Yours faithfully

Thomas Sneddon
Deputy Head of Estates
