For the attention of Mr Martin Cannings

Dear Mr Cannings,

Building Heritage Impact Assessment – Redevelopment of Unit 5, Wilton Shopping Village

Attached is a copy of the historic asset impact assessment that we have prepared for you on the above property following the receipt of your instructions. An electronic copy has also been sent to you by e-mail. The report sets out the extent of our investigations and our findings.

Overall, I do not see this as causing any significant impact on the character of the conservation area as the changes to the exterior will restore the appearance to as the building was when the conservation was designated, although with a few minor amendments. Internally, any changes are just that and so will not be noticeable externally.

As our work is now completed to an appropriate stage, we have taken this opportunity to submit our fee invoice to Mr Brmhall, as requested, for his attention and settlement.

The Historic Building Advisory Service can provide a wide range of professional services to help you get the most from your property. These include assisting with ordering necessary repairs, designs for extensions and new buildings, obtaining planning and building regulation approvals, getting the best prices for the work and supervision of the work. If we can be of further assistance with this or further projects or ideas, we would be very pleased to discuss them with you.

Yours faithfully

R J Hill MRICS, MCIfA
