Dear Mary Rose Scott,

[PL/2026/03847 The Fawns, Wilsford, Amesbury, Salisbury, SP4 7BL](#)

Thank you for consulting the Stonehenge and Avebury World Heritage Site (WHS) Coordination Unit on this application for a rear and first floor extension to form an annex, loft conversion and associated internal alterations.

This application takes place within the Stonehenge part of the Stonehenge, Avebury and Associated Sites WHS. The WHS Coordination Unit monitors the impact of development on the Attributes of Outstanding Universal Value (OUV) as inscribed by UNESCO to maintain the Integrity and Authenticity of the WHS and its setting. For full details of OUV please refer to the Stonehenge, Avebury and Associated Sites WHS Management Plan (2015)¹. A description of setting can be found in Supplementary Planning Document (SPD) 'Setting of the Stonehenge, Avebury and Associated Sites World Heritage Site'².

The Design and Access Statement identifies that the site is within the Stonehenge World Heritage Site and concludes that no harm is anticipated to the significance or setting of designated or non-designated heritage assets. We assess that:

- The north-west elevation introduces additional glazing with potential for change through increase in light-spill within the setting of Scheduled Monuments in closer proximity within the WHS, particularly Wilsford Round Barrow Cemetery.
- A combination of retaining near-to the height of the current structure, topography, and screening by trees, results in no change that would impact the setting of the WHS and Scheduled Monuments within it.

As a result, we have no further comment on this application.

Yours sincerely,

Claire Selman

Partnership Manager
