

KEY

- Existing gateway to be adapted to provide a safe cycle and pedestrian access framed by a mix of existing and new tree planting to create a softer and more naturalistic entrance.
- Gateway park with a natural layout and links to the proposed Hawkeridge Road pedestrian/cycle crossing and SANG parkland.
- The drive through, commercial and care home buildings are enclosed with a strong landscape framework of trees and hedging.
- A private garden for the care come including woodland walk, seating areas and raised allotment beds.
- A circular walk for SANG recreational use including dog walking.
- A LEAP play area with timber framed equipment to complement the natural POS design approach.
- Wetland ponds with shallow banks to enable access for pond dipping and exploration.
- Allotment beds.
- Access to Hawkeridge village.
