1. All Works are to be constructed in accordance with Wiltshire Council and the Highways Agency's Specification for Highway Works (SHW) March 2025 as amended published by the Highways Agency.
2. All levels relate to the survey which is to Ordinance datum. Dimensions not to be scaled.
3. Use of this drawing does not absolve the client from their responsibilities under the Construction (Design and Management) Regulations 2015.
4. The Principal Designer is required to contact Tumu Consulting prior to permitting this drawing to be used in connection with any construction Works. For site specific CDM 2015 Designers Residual Risks, see drawing series 1140 and should be read in conjunction with the General Risk Register.
5. The Contractor is to check and verify all buildings and site dimensions and levels, including existing sewer invert levels, before works start on site.
6. Sections of existing ground surface to be cut or excavated adjacent to or crossing proposed excavations are to be checked by the contractor prior to starting work.
7. This drawing is to be read in conjunction with and checked against all other drawings, engineering details, specifications and any structural, geotechnical or other specialist reports, drawings, plans, and specifications. Any discrepancy between any of the above is to refer to Tumu Consulting before construction begins.
8. The planning, design and construction of sewers shall be in accordance with Appendix C of the Construction (Design and Management) Regulations 2015.
9. The Civil Engineering Specification for the Water Industry 8th edition and ~~XXXXXXX~~XXXXXX amendments to CESWI dated may 2023.
10. For all private surfacing refer to Landscape consultants drawings and specifications.
11. Construction of Groundwater Protection shall be in accordance with NIRC Part 10 guidance.
12. Refer to Section 38 & 104 Drawings for a full set of construction specification notes.
