

The Town and Country Planning Act 1990
Approval of Variation of Conditions
Application Reference Number: PL/2026/01740
Decision Date: 29/07/2026

Applicant:	Nomadic Change Limited New Manor Farm, The Stables, Pitton Road, West Winterslow, Salisbury, SP5 1SE
Particulars of Development:	Variation of condition 2 (approved plans) on PL/2024/10952 for the addition of two dormer windows to the North-West elevation and relocation of flue
At:	New Manor Farm, The Stables, Pitton Road, West Winterslow, SP5 1SE

In pursuance of its powers under the above Act, the Council hereby **GRANT PLANNING PERMISSION** for variation or non-compliance with a condition or conditions imposed on an earlier permission in accordance with the application and plans submitted by you.

In accordance with paragraph 38 of the National Planning Policy Framework, Wiltshire Council has worked proactively to secure this development to improve the economic, social and environmental conditions of the area.

Subject to compliance with the following conditions:

- 1** The development hereby permitted shall be carried out in accordance with the following approved plans and documents:

Location Plan ref: PLG_1278-102A Date Received: 23/03/2026

Proposed Block Plan ref: PLG_1278-103E Date Received: 26/05/2026

Proposed Plans and Elevations ref: PLG_1278-101D Date Received: 26/05/2026

Application Form Date Received: 16/03/2026

REASON: For the avoidance of doubt and in the interests of proper planning.
- 2** The materials to be used in the construction of the external surfaces of the development hereby permitted shall match those detailed on the application form and approved plans.

REASON: In the interests of visual amenity and the character and appearance of the area.

- 3 The development will be carried out in strict accordance with the following documents:

- Nutrient Neutrality Budget for the Solent Marine- Existing
- Nutrient Neutrality Budget for the Solent Marine- Proposed
- Nutrient Budget Report. February 2025. Elite Ecology
- Bat Emergence Survey Report. August 2025. Elite Ecology
- Package Treatment Plant Location Plan. September 2025. PD Studio
- Proposed Plans and Elevations Rev B. October 2024. Property Design Studio

REASON: For the avoidance of doubt and for the protection, mitigation and enhancement of biodiversity.

- 4 The proposed package treatment plant (Grafone2clean) and drainage field shall be installed, maintained and operated in accordance with the submitted specification and details hereby approved. Any subsequent replacements shall have an equivalent or improved performance specification. The package treatment plant and drainage field shall be installed, connected and available for use before the development is occupied and they shall be maintained and operated thereafter for the lifetime of the development.

REASON: To provide ongoing and adequate nutrient mitigation for the nutrient neutrality water catchment for the life of the development and to ensure that any future package treatment plant is of an equivalent or improved standard.

- 5 The overnight development hereby approved shall be designed to ensure it does not exceed 110 litres per person per day water consumption levels (which includes external water usage) and a water efficiency assessment should be submitted. Before the development is brought into use, a water efficiency report certifying that this standard has been achieved shall be submitted to the local planning authority for its written approval.

REASON: To ensure compliance with the prevailing mitigation strategy for nutrient neutrality in the water catchment within which this development is located.

A water efficiency calculation will be needed to discharge this condition. For guidance on how to do this and what is required, please refer to the following document: 'The Building Regulations 2010 – Sanitation, hot water safety and water efficiency', Appendix A (p36- 44).

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/504207/BR_PDF_AD_G_2015_with_2016_amendments.pdf

- 6 All lighting provided on site shall be in accordance with the appropriate Environmental Zone standards set out by the Institute of Lighting Engineers in their publication GN01:2021, 'Guidance for the Reduction of Obtrusive Light' (ILP,

2021), and Guidance note 08/18 “Bats and artificial lighting in the UK”, issued by the Bat Conservation Trust and Institution of Lighting Professionals and will demonstrate that bat habitat (trees, scrub and hedgerows) on the perimeter of the site will remain below 1 lux.

REASON: In the interests of the amenities of the area and to minimize impacts on biodiversity caused by light spillage to areas above and outside the development site.

- 7 The roost and access point opportunities to be created for bats, as detailed in the (Proposed Plans and Elevations Rev B. October 2024. Property Design Studio) shall be implemented as agreed or as agreed with Natural England prior to the completion of the development hereby permitted under the supervision of an appropriately qualified ecologist. The details shall be maintained in for the lifetime of the development, unless otherwise agreed in writing by the Local Planning Authority.

REASON: In the interests of conserving and enhancing biodiversity

Informatives

- 1 All British birds, their nests and eggs are protected under Section 1 of the Wildlife and Countryside Act 1981 (as amended) and the Countryside and Rights of Way Act 2000 while birds are nesting, building nests and sitting on eggs. The applicant is advised to check any structure or vegetation capable of supporting breeding birds and delay removing or altering such features until after young birds have fledged. Damage to extensive areas that could contain nests/breeding birds should be undertaken outside the breeding season. This season is usually taken to be the period between 1st March and 31st August but some species are known to breed outside these limits.
- 2 A non-mains sewerage system is proposed. The area in which the development is located is within close proximity to the River Avon and may experience flooding and ground water conditions of concern. Primary responsibility for ensuring sewage systems for new developments are adequate lies with the Building Control Department. We would recommend you satisfy yourself that a non-mains sewerage system is appropriate and practicable in the circumstances taking into account ground water conditions throughout the year. For further guidance see the National Planning Practice Guidance “Water supply, wastewater and water quality.”

Any installation of a Package Treatment Plant needs to meet approval of Environment Agency’s requirements under their permitting role.

- 3 Evidence of compliance to the Wiltshire Council New Forest Protected Sites Recreational the scheme.

An alternative mitigation package must be approved by the local planning authority and Natural England with evidence of allocation to the scheme.

- 4 The roof space is used as a bat roost. Under the Conservation of Habitats and Species Regulations 2017 (as amended), it is an offence to harm or disturb bats or damage or destroy their roosts. Planning permission for development does not

provide a defence against prosecution under this legislation. The applicant is advised that a European Protected Species Licence will be required before any work is undertaken to implement this planning permission. Future conversion of the roof space to living accommodation or replacing the roof could also breach this legislation and advice should be obtained from a professional bat ecologist before proceeding with work of this nature.

Nic Thomas - Director of Planning, Economy and Climate

NOTES

- 1 **Other Necessary Consents.** This document only conveys permission for the proposed development under Part III of the Town and Country Planning Act 1990 and the applicant must also comply with all the byelaws, regulations and statutory provisions in force in the area and secure such other approvals and permissions as may be necessary under other parts of the Town and Country Planning Act 1990 or other legislation.
 - 1.1 the need in appropriate cases to obtain approval under Building Regulations. **(The Building Regulations may be applicable to this proposal. Please contact the Council's Building Control team before considering work on site);**
 - 1.2 the need to obtain an appropriate order if the proposal involves the stopping up or diversion of a public right of way or other highway (including highway verge);
 - 1.3 the need to obtain a separate "Listed Building Consent" to the demolition, alteration or extension of any listed building of architectural or historic interest;
 - 1.4 the need to make any appropriate arrangements under the Highways Act 1980, in respect of any works within the limits of a highway. The address of the Highway Authority is County Hall, Trowbridge, BA14 8JD (It is the responsibility of the applicant to ascertain whether the proposed development affects any listed building or public right of way / other highway, including highway verge).
- 2 **Appeals.** If the applicant is aggrieved by the decision of the local planning authority to grant permission subject to conditions, he may appeal to the Secretary of State for the Environment in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of this decision. (Information and forms relating to the appeals process can be found at the Planning Portal - <http://www.planningportal.gov.uk/planning/appeals>).
- 3 **Climate Change.** Wiltshire Council acknowledges the climate emergency and is seeking to make the county carbon neutral. You are encouraged to include energy efficiency that exceeds building regulations and to meet residual energy demand through renewable energy and low-carbon technologies, including high levels of electric vehicle charging points. The developer is encouraged to contact the climate team to discuss this further. climate@wiltshire.gov.uk
