

24th July -

Application No -
PH/2026/04254 .

Sir, I strongly object to the wide hard surface
drive in this field.

It has always been a field full of wildlife &
wild flowers - No longer!

This drive blocks where he was told to plant
5 x Oaks (of good size) to replace the big
trees he cut down. (2 were 16 years protected)
So of course he has never planted those.
Back in 2019/20 he RAMMED down all the
trees by the river.

Ordered to replace these - but NEVER has!
All winter & spring this once beautiful field
looked like "The Somme".

Yours faithfully
