

KEY

- Areas of existing street facing facade for which retrospective consent is applied for repointing the existing brickwork
- Areas of existing street facing facade for which consent is applied for repointing the existing brickwork, to match the upper section
- Consent is applied to repair the existing concrete capping to the front wall. It is proposed for the front wall brickwork to be repointed with mortar to match the house
- Blown brickwork to be replaced with brickwork to match the existing (shown on photo)

The railings to the base of the front elevation are to be repainted with black paint to match the existing

All new mortar to be lime mortar, to match that used for the upper section of the front of the house

All replacement brickwork is to match the existing
