

A Phillips

2 Aug 2026

Dear Sir,

Re the application for planning permission to allow standing of an additional two residential caravans -

As I was unaware any residential caravans had been given permission for residence at Land at No 2 the holdings so am unclear the total being considered.

1 non residential van with a wooden hut as storage hut and no car was the start when without consideration for wild life and conservation of open green belt the land was cleared, fenced, 3 septic tanks brought in then 3 residential chalets, 3 mobile homes, 3-4 vehicles.

Planning applied for

Refused

Appealed

Refused

Appealed

Those who have applied for planning over the years have been told it is an attraction

area of green belt land and should only be
for agricultural or horticultural purposes.

I remain somewhat confused, and
against extension of development at NO2,

Yours faithfully,
