Submitted through Planning Portal only

Dear Sir/Madam

Re: Quarry Farm, Ansty, Salisbury, SP3 5PS

Please find enclosed an application on behalf of Messrs Beale for a determination as to whether prior approval is required for the erection of an agricultural building for the storage of machinery, equipment and animal fodder to farm the land at Quarry Farm. following is provided with this application:

- Completed Application Form
- Location Plan (Drawing No. 26072-1 Rev. B
- The requisite application fee has been paid through Planning Portal.

The building is required because the farm lacks dry and secure storage space to keep farm machinery, equipment and animal fodder. At present, certain machinery, a tractor and a telehandler is kept elsewhere but this involves unnecessary movements on the highway when required at Quarry Farm. Other pieces of machinery kept at Quarry Farm are deteriorating through exposure to the elements. As such, the building is reasonably necessary for the purposes of agriculture.

The proposed building has been discretely positioned in the corner of the field and the green walls and roof will assimilate the building with its rural context and existing trees provide a back drop to minimise its presence. For these reasons, I trust that the Council will determine that prior approval is not required as to the siting, design and external appearance of the proposed building.

Should you have any queries in respect of this proposal, please do not hesitate to contact me. Otherwise, I look forward to receiving confirmation that prior approval is not required within 28 days.

Yours faithfully

Matt Williams
