Notes

Related Drawings: This is a composite drawing based on information from other consultants:

- PARCEL 1 & 2 LANDSCAPE MANAGEMENT: Tree Inventory.
- TOPOGRAPHIC SURVEY: New Fringe Development Services, H&P GSA, dated 02/06/2025, not from client 06/01/2026.

Issue: Issued by David Jarvis Associates Limited (DJA) on 06/01/2026. All rights reserved. This drawing is for the client's use only. It is not to be used for any other purpose. The client is responsible for ensuring that the drawing is used in accordance with the terms of the client's agreement with the client.

Setting out: Refer to Engineers for information regarding setting out. In the event of discrepancy refer to Engineers in the first instance.

Survey: Original survey provided by the Client.

Planting: These species are selected and listed in line with consideration of the site conditions, NERC guidelines and discussions with the Local Authority and Design Team. All plants and planting provided to contractors in the final area boundaries must be identified and confirmed by the client. The client is responsible for ensuring that the planting is carried out in accordance with the terms of the client's agreement with the client.

The Root Protection Measures (RPM) and Root Protection Areas (RPA) are shown in this drawing. The client is responsible for ensuring that the RPM and RPA are carried out in accordance with the terms of the client's agreement with the client.

Foundation: Designers / Contractors to ensure that all foundations (building and external walls) are designed and constructed so as to take into account the risk of stability, any existing or proposed trees, buildings or other structures on the application site or existing vegetation on the site.

Design Levels: Refer to Engineers where design levels are not shown.

CAUTION: Drawing to be used in conjunction with Designers risk assessment. Potential risks above that of those associated with the general construction typical to the drawing are identified below.
