Subject: RE: Salisbury District Hospital DASH - Full application submission [LICH-DMS.FID762233]

Dear Becky,

Following the formal submission of the DASH application on 17 July 2026 and as noted in the submitted Covering Letter, we are pleased to provide the following additional documents to accompany the application and to be added to the application submission file:

1. The Statement of Community Involvement;
2. The Design West response note; and,
3. Appendix B (Tree Constraints Plan) and C (Tree Protection Plan) of the Arboriculture Report.

We would also like to provide the following updates in relation to the wider proposed development works.

The application proposal indicated that the contractors' compound would be located within the proposed development area and that the construction management office would be located nearby on land adjacent to the Elizabeth building, which would be subject to a separate application for temporary planning permission. The appointed contractor has since undertaken a further review of the proposed construction logistics and has concluded that it will not be necessary to locate the site management office outside the application red line boundary. As such, a separate planning application for the temporary management office is no longer required.

In addition, following a further review of Car Parks 8 and 9, the Trust has concluded that it is able to implement the operational changes required as a result of the closure of the existing southern access to Car Park 9 without the need for any physical works requiring planning permission. Consequently, no additional planning works are proposed in relation to Car Parks 8 and 9.

We would be grateful if the attached documents and the above clarifications could be added to the application file as part of the submitted information.

Please let us know if you require any further information at this stage.

Kind regards,

Katy
