### Objection with regard to the effect of the proposed development on Bridleway TILS7.

I object to the proposed position of the fence alongside Bridleway TILS7.

From the submitted plans showing the ownership of the Village Hall and the available historical mapping, the boundary of the Hall land adjacent to the bridleway is as shown by the red dashed line indicated below.

The proposed fence should not be positioned any further east than this boundary line. To do so would result in the loss of the verge alongside the bridleway and would be considered to be an encroachment onto highway land.

The plans should therefore be amended to ensure that the fence is positioned no further east than the historic boundary line, thereby preserving the highway verge alongside Bridleway TILS7 and preventing encroachment onto highway land.

In the absence of amended plans demonstrating that the full extent of the highway verge will be retained and protected, I object to the application.

### Village Hall ownership plan

OS plan from 1887 showing boundary between bridleway TILS7 and the village hall land.
