Hi Andrew
You would be correct this would now be a "no objection" response

Kind Regards

Ben Wilding

Thanks Ben / James,

Very much appreciated – just to check, whether this is a ‘no objection’ position? I presume so but just to check since those points were read more as clarification of the detail in the report as opposed to supporting information needed to make the proposal acceptable if that makes sense.

Kind regards

Andrew Thomas

Hi Andrew

Notin that James is on leave, I would be comfortable that the remaining points regarding velocity and Cv have been addressed in the latest FRA and drainage strategy submission

Kind Regards

Ben Wilding *MEng (Hons) Eur Ing CEng MICE*
