Subject: Discharge of Planning Condition 24 – Fuel Tank Removal Strategy, Chicklade Services

20 July 2026

Dear Sir/Madam,

I write to confirm that the underground petrol storage tanks at Chicklade Services have been removed in accordance with the Fuel Tank Removal Strategy approved under Planning Condition 24.

The works were completed as follows:

- The petrol storage tanks were removed from the ground on 09 February 2026.
- Following tank removal, verification sampling and assessment works were undertaken.
- Final soil samples were collected on 16 March 2026 and the results confirmed that no contamination remained requiring further remediation.

The removal works, validation sampling, laboratory analysis, and verification of site conditions are fully documented within the Remediation Validation Report dated 22 June 2026.

On this basis, we consider the requirements of Planning Condition 24 relating to the approved Fuel Tank Removal Strategy to have been satisfactorily completed and respectfully request written confirmation from the Public Protection Service that the condition can be fully discharged.

Should you require any further information, please do not hesitate to contact us.

Yours faithfully,

Bruno Skinner

Project Manager
