Subject: Re: PL/2026/01523

Dear Georgina,

Further to your email yesterday, please find attached the details I have prepared in response to proposed Conditions 4, 16 and 17:

- Condition 4 – Existing and Proposed Landscaping Plans, together with the accompanying Landscaping Technical Note;
- Condition 16 – Construction Method Statement; and
- Condition 17 – Ecological Enhancement Scheme.

I hope these provide the information required to address the three pre-commencement conditions.

Given that the S106 is now being progressed, I would be very grateful if you could review these alongside that process and, if you are satisfied with the details, incorporate the approved documents into the decision where possible. My aim is simply to resolve these matters now rather than having to make separate discharge applications immediately following the grant of permission.

If there are any minor amendments or additional details you require, please do let me know and I will deal with them promptly.

Many thanks again for your help in getting the application to this stage.

Kind regards

Brian
