Dear Ashley & Lio,

This is a note from someone who has lived in Marden for 30 years !! And also someone who has seen many changes to have taken place over that time to The Old School House -

Charlotte did show me her plans for the changes she wished to make - sadly due to unfortunate circumstances - they never got done -

I have lived in this end of the village for long enough to be very interested in changes here so am delighted to write this note in order to fully support what you both wish to do now.

I look forward to seeing it all finished and need to tell you that what you have already done to the garden is lovely - and am delighted to support it ALL !!

Yours sincerely,
