Dear Sirs

Application for consent for works to trees at 27 St Margarets Street Bradford on Avon and the District of West Wiltshire (27 St Margarets Street, Bradford on Avon) Tree Preservation Order 2001

This application for works to the Beech tree (subject to a TPO) at number 27 is for consent to carry out the work recommended by Jon Burgess of Downland Tree Surgery Limited, in his recent inspection in June 2026

Since moving here in 1975 I have had the Beech tree regularly inspected with works undertaken over the years because of its urban position

The density of the canopy and the proximity of the tree to this house and the houses in Longs Yard are the main reasons why further work is required. There has been significant regrowth since work was last undertaken in 2021. Consent was 20/10598/TPO dated 20 January 2021

The schedule by Downland Tree Surgery has been determined on the basis that the long-term protection of the tree and adjoining houses is the prime consideration.

Yours faithfully
