PROPOSED EXTERNAL MATERIALS

Walls and double doors: pressure treated 12 mm timber shiplap tongue-and-groove cladding.

Framing / trims: pressure treated timber; manufacturer lists 28 x 44 mm planed timber.

Roof: timber pent roof finished with 20 kg waterproof roofing felt (dark finish).

Door hardware: metal hasp and staple. External timber: natural / green treated appearance.

Base and floor finish: to be confirmed with supplier / installer before submission.

SCALE BAR 1:100 (A3, print at actual size / 100%)

Each 10 mm on the page represents 1 m.

Check the bar measures 50 mm after printing.

Dimensions from retailer listing; roof fall and door opening are illustrative where not specified.

This sheet shows the shed itself. A separate site / block plan is needed to show its position and boundary offsets.
