Description and proposal

TO FORM NEW HARD STANDING AND DROP KERB ACCESS

1.0 Introduction

The property does not benefit from off road parking, it is the intention to form new hard standing with new drop kerb access to Priory Street. The existing wall (800mm high) will be adapted to form opening to allow two cars to park off road.

Cover image indicates part of wall to be removed, and also the graveled area behind which will have new drive
