3/9/2026 21:00:49	Weekly	For its historical significance to the Warmminster landscape.	Owls, bats, butterflies, deer & wild flowers	5	Yes	I've walked this space for over 50 years either on my own, with family or friends, my girlfriend (now my wife) and importantly my family Labrador. It's a unique space bridging natural countryside & the sharp contrast of Salisbury Plain. Uniquely calming, enhancing mindfulness & physical and mental wellbeing.	Beauty: Its contribution to the scenic character of the area.	BA12 9HG	Over 52 years	35-65	It's absolutely unique. A space where today & yesterday meet in the moment. Where you can be 'at one' with nature. An ancient space where time stands still. It provides an overriding sense of peaceful solitude.	N Titt

Deer, bats at twilight	5	Yes	This part of Warminster has been under pressure for more urban development for several years. We benefit from the sense of accessible, green open space and the connection to the Wiltshire Downs and Salisbury Plain that Home Farm provides. It is free from traffic, pressure and is 'authentic' traditional farming land. The development now known as Boreham Mead on what was Spurt Mead, less than half a mile away, is an example of what happens when development pressure wins. It has permanently removed an ancient water meadow and another historic part of the town-country boundary. It has added little tangible benefit to the community but increased traffic at peak times and excessive pressure on the drainage system particularly during heavy rain when the roads flood. Home Farm has greater public access along the rights of way than Spurt Mead and this gives immeasurable benefit and pleasure to the many people who use them daily year round. Any development at Home Farm would remove historic farmland and the intangible benefit and sense of well-being it provides and has provided for generations. Deer, butterflies, kites, buzzards, weasels, hares, muntjacs.	5	Yes	Boreham has its own identity, which is different from Warminster's. It had agricultural cottages but was also the 'gentle' end in Victorian and Edwardian days - big houses for titled ladies and retired officers! Then those mostly became quiet estates with a leafy feel. The social housing has a green feel too, as do the barracks. It would feel wrong to hem in this hamlet with clone housing. Home Farm currently provides a precious historical and geographical connection between homes and countryside. That would be an irreversible disaster. I hope it can remain as a local green space for lots of people to enjoy. It is a wildlife corridor between Salisbury Plain and the Bishopstrow Conservation Area. It is truly special, full of archaeology and history, and is the last green space in this part of Warminster, everything else like the school field is fenced off and locked, the remainder is behind the security fence of Battlesbury Barracks or in military ownership and used for live firing and other training and can be denied access at any time. If Home Farm is built on, that's it, there will be no green space left close to my home. PLEASE DO NOT BUILD ON HOME FARM - PROTECT IT AS LOCAL GREEN SPACE.	DH

The impact on the wildlife will be catastrophic, the noise, increased traffic and flood risk, light and exhaust pollution and the strain on the beautiful River Wylye will also be disastrous for the area. Looking at the Neighbourhood Plan and the number of houses proposed for Warminster, Westbury and the surrounding area, I just do not understand why there's a need to dig up and concrete over such an historic, rural, peaceful and beautiful area with the devastating consequences to the wildlife that lives there and the impact on mental health issues for the local population. I discovered it in Lockdown and walk here a few times a week. Without the green spaces, there are few urban areas in Warminster you can walk in now. At the CleY Hill side of town, all the green spaces have now been built on or are being built on. I moved here specifically so I could walk in open green space. The town park is wonderful, but very busy at times. It would be devastating to lose the green space surrounding Home Farm as well. This would be SO detrimental to nature too.	Yes	BA12 8SA	23.5years	35-65	I am not the only person using this green space. Many walkers, runners, dog walkers, cyclist and bird watchers to name but a few enjoy this area. Local schools walk here as well. Without this green belt of space, Warminster would be getting close to joining every roundabout on the bypass. This urban sprawl would affect people and nature. Please, please, please do not build on this area. Please consider other brown sites and stop building on our much needed FARM land.	Francesca Goley
3/22/2026 23:29:06	Weekly	As a Green corridor for local wildlife (birds, bats, deer etc), For its role in maintaining the "rural feel" of East Boreham, For the sense of peace and tranquillity it provides, As a place for recreation.	All of the above	5	Yes	For the last 25 years I have used this area and space daily, to see this space filled would upset me and would affect my well being.	Yes	Ba12 9EB	25 years	35-65	This area is si important to the people that live around the area, the impact it will have on the wildlife would be significant. People use this space for walking, running, biking. My children have grown up using this space and now my grandchildren is doing the same.	Bob

Yes	Ba12 8ST	A year and a half	35-65	Although I have only just moved back to the area, I have visited my family, who live locally for the last 20 years.	Dick
3/22/2026 23:40:05	Daily	As a visual "break" between the town and the countryside, As a Green corridor for local wildlife (birds, bats, deer etc), For its historical significance to the Warminster landscape, For its role in maintaining the "rural feel" of East Boreham, For the sense of peace and tranquillity it provides, As a place for recreation.	Deer, butterflies, orchids, fungi.	4	Yes	Because it's a safe place to walk with or without my four legged friend.	Yes	Ba12 9ER	14 years	66 and over	Our doctors, dentists and others like schools and nurseries are all at breaking point, and 135 houses will only add to the fact that we can't see doctors at the moment face to face and if you make these houses available how will they cope with more than 300 more people.	Don

Owls, deer, geese, butterflies, kites, bats, buzzards, swallows, house martins.	5	Yes	The town has a role and the countryside has a role. It's essential to health, to the historic nature of home farm that the role it plays remains available to all. What surrounds Warminster helps define the town.	Yes	Ba12 9HF	13 years	35-65	We all know that we need more houses but a) surely we need to complete and fill the west urban extension first. And b) more importantly the historic nature of home farm and its environs put the historic in the description of Warminster, we simply cannot destroy our nature, our history oh and how on earth is Boreham rd going to cope???
