

Denise Jurquet

To whom it may concern,

As a long term resident of Upavon since 1988 and I would like to say that I have no issues with the MX track on the hill opposite the estate where I live. The track has been there for many years and the noise is background and not intrusive at all. We use our garden all year round and have never had to go inside due to the noise of the bikes, to be honest we don't even notice it.

The bikers being on the hill and not racing round the roads, the tank tracks or the estate is preferable in my opinion. The extra people using the village means that we stand a good chance of not losing the local amenities like the pubs and the shop and post office.

Personally, I find the church bells, guns firing, helicopters flying over at night and bikes racing up the hill towards the camp far more intrusive, but these are things we live with and is the price you pay for living in a small village near an Army camp on the edge of Salisbury Plain.

Regards

Denise Jurquet

Ref: Upavon MX.

To Whom it may concern,

I have lived in Wiltshire for approx. 35 years. I became aware that events were held at Upavon MX track in the 1990's. My 2 sons were huge fans of the sport and we spent many Sunday afternoons watching the events then run by the AMCA.

This track has been part of our life for decades and is a great asset. We were overjoyed to see the local track had been given a new lease of life and are now able to take my grandson to watch.

To whom it may concern,

I have lived in Urchfont all my life. At the age of 6 I began competing in Motocross events. One of the 1st tracks I became aware of in the 1980's was Upavon MX, just 10 minutes from home. I have had the opportunity to ride at many tracks over my lifetime, Upavon being a favourite.

Having the opportunity to ride at tracks like Upavon has enabled me to become British Quadcross Champion several times. I still compete regularly in the UK and abroad.

Upavon MX is a great asset to the County.

Yours Faithfully
