

SUMMARY of works in connection with provision of disable facilities with ramp at

Bonneymead Park Recreation Ground Recreation Road Amesbury SP4 7BB for

Amesbury Town Council

Location—The recreation Ground is located to the South West of Amesbury town centre and provides facilities with a well-equipped children's play area, open recreation area, football pitch and club pavilion.

Proposal--- Amesbury Town Council own the recreation ground and find that the facilities Pavilion are not always available to those using the Children's play area or the Recreation Area and took the decision to provide facilities.

A factory built unit providing a compliant disable facility and separate ambulant facility was acquired and brought onto the Ground positioning on a concrete base with outside platform and ramp, unfortunately the external works are not compliant with DDA requirements.

The plan supporting the application indicates proposals compliant with DDA standards

The units will be connected to the present drainage facilities that serve the Pavilion

Planning--- It is considered the works can be considered under Part 12 Class A of the GDO para A[a] in that the work is being carried out by Amesbury Town Council on land which they own for the benefit of the community

Attachments----The photographs attached show the unit in position but with non-compliant apron and ramp
